亞歷山德·列維 聲動台

聲音互動裝置 · 15×12公尺

Alexandre LÉVY

T-Sensations

Interactive and Musical Installation, 15x12 meters

2017

你可曾經撫過海的細語，觸摸過寺廟牆面與神秘大鼓的波動，還有遠方港口的熙攘節奏？你可曾與風一起遊戲，透過皮膚感受空氣的低吟？你可曾想像伴著古怪的電子鳥鳴與窸窣的藤蔓共度時光？

〈聲動台〉是件互動裝置作品，需要你溫柔地出擊，輕輕探索所有聲音的機關。這件裝置會感受得到你，請輕觸金屬板面、把手埋進沙中、或是觸摸被風吹動的管子與布條。噓，小聲點，讓我們用身體來聆聽不同的聲音。

Have you ever really touched the sound of the sea? Have you felt the vibrations of temple walls, of huge mysterious drums, or of a faraway harbor? Have you played with the wind, felt air and sounds blowing together on your skin? Have you ever imagined playing with the sounds of eccentric, electronic birds and dangling vines?

T-Sensations is an interactive installation. You must to be an active listener. All sounds will be triggered by you. The installation can feel you. When you hit gongs, bury your hand in sand, walk through hanging vines or touch blowing strands of tape. Well, enter T-Sensations and shhh... listen to sensation and sound.
